

ILA to be submitted on August 17 (Monday)

Instruction: This should be hand-written, in 1 whole sheet of paper(could be any type);

1. Write all the formulas needed in solving problems on gases
2. Write the values of the constants and conversion factors needed on solving gases
3. Look for 1 problem on gases, solve it, show complete solutions (from any e-book).

This problem should have no solution/answer in the e-book.

Then get a photo of your output, later on convert it PDF and upload in the k-hub. Be sure to write your name, section, date/time that you upload your output.

5 pts per item

Rubric: Accuracy -2 pts, Completeness- 2 pts, Cleanliness – 1 pt
